Larkspur Bay Logistics Pte. Ltd.

Purchasing Policy

1. Purpose

This policy sets out how the company buys equipment, spare parts and services, and who approves each purchase.

2. Purchase requests

A Shipment Coordinator raises a purchase request with the item, the estimated cost in Singapore dollars and the business reason. The Operations Manager confirms the operational need before the request goes for approval.

3. Approval levels

Estimated cost	Approval required
Up to SGD 5,000	Operations Manager approval
Above SGD 5,000 up to SGD 50,000	Operations Manager approval + Finance Manager approval
Above SGD 50,000	Operations Manager approval + Finance Manager approval + Regional Director approval

4. Quotations and purchase orders

Approved purchase requests are sent to Procurement. For purchases above SGD 5,000 the Buyer obtains three written quotations. The Procurement Manager selects the supplier and signs the purchase order.

5. Supplier invoices

Procurement forwards each supplier invoice to Finance. The Accounts Executive matches the invoice to the purchase order and pays the supplier within 30 days. Invoices above SGD 20,000 also need Finance Manager approval before payment.

Larkspur Bay Logistics Pte. Ltd. is a fictional company. This document is sample data for testing OrgFlow.
