Banyan Lantern Technologies Pvt. Ltd.

Employee Onboarding Procedure

1. Before the joining date

When a candidate accepts an offer, the HR Executive sends a new joiner request to IT & Administration at least five working days before the joining date, with the employee's name, role, department, joining date and laptop requirements.

2. Laptop and access

The IT Executive sets up the laptop, the email account and the access card, and confirms to HR the day before the joining date.

3. Payroll

On the joining date, HR sends the joining details to Finance: the employee's bank account, PAN and monthly salary. Finance adds the employee to payroll for the joining month.
